

Design principles for the Thermo Break reinforcement cage

Company name: _____ Project: _____

The reinforcement cages are fully customized based on the data entered below

description	value				unit
tensile force					kN
pressure force					kN
shear force					kN
moment					Nm
thickness Thermo Break (d1)					mm
thickness steel beam (d2)					mm
type steel beam					
center to center bars horizontal (h1)					mm
center to center dimensions bars vertical (h2)					mm
concrete quality					
edge distances	c1: center of top bar to top edge concrete	c2: center of bottom bar to bottom edge concrete	c3: center of left bar to left edge concrete	c4: center of right bar to right edge concrete	mm
dimension Thermo Break plate	a:	b:			mm
number of required cages					pieces
anchor	☐ electrolytically galvanized ☐ hot dipped galvanized ☐ stainless steel A4
